**The project aims to define innovative methods and tools for the assessment of EFL learners. Its main goal is to bring new approaches to assessment and contribute to the development of evaluation consciousness. It also seeks to support the restoration of the assessment system and share good practices among European countries.**

**All the partners will have a chance to promote the specific skills acquisition and skills enhancement for foreign language teachers for:**

- 1) The effective teaching and evaluation methods of foreign languages in particular through the use of ICT**
- 2) A choice of quality products in language assessment, identifying the best products that meet the specific educational needs**
- 3) The use of products available either as an alternative or as an integration of traditional methodologies**
- 4) The creation from scratch of educational and training products that exploit the potential of new technologies**
